

# 2021 Webinar Class Description

## Core Classes

### **Webinar Intro & Orientation to Arborjet (CORE)**

An introduction to the webinar series format, overview of the course and course systems, and instructions for system log ins

### **Tree Physiology as it Relates to Trunk Injection (CORE)**

An overview of the anatomical features and physiological functions of trees, what the relevance of those features and functions are to trunk injection, learning to work in cooperation with the tree's natural responses to its environment

### **Arborplug® Methodology (CORE)**

What the Arborplug is, features of the Arborplug, how the Arborplug works and what it does, how to properly set an Arborplug, common mistakes of setting an Arborplug

### **QUIK-jet Air® Injection System (CORE)**

Instruction on the QUIK-jet Air system, features of the system, how to use the QUIK-jet Air, sample applications, common troubleshooting and maintenance

### **TREE I.V./F Series Injection Systems (CORE)**

Instruction on the I.V. injection systems, features of the systems, various kit configurations for the systems, how to use the I.V.s, when to use the I.V.s, sample applications, troubleshooting and maintenance

**TREE-äge®, TREE-äge G4, and TREE-äge R10 (CORE)** What is TREE-äge, G4, and R10 how it works, efficacy data, how to use it, review of label and SDS

## Elective Classes

### **QUIK-jet® Injection System (ELECTIVE)**

Instruction on the QUIK-jet injection system, features of the system, various kit configurations for the system, how to use the QUIK-jet, when to use the QUIK-jet, sample applications, troubleshooting and maintenance

### **Equipment Maintenance (ELECTIVE)**

More detailed information about how to disassemble, reassemble, troubleshoot, store and maintain the TREE I.V. and the QUIK-jet injection equipment.

### **IMA-jet Insecticide (ELECTIVE)**

What is IMA-jet, how it works, efficacy data, how to use it, when to apply it, common applications, review of label and SDS

### **ACE-jet Insecticide (ELECTIVE)**

What is ACE-jet, how it works, efficacy, how to use it, when to apply it, common applications, review of label and SDS

## Elective Classes (continued)

### **AzaSol™ Botanical Insecticide (ELECTIVE)**

What is AzaSol, how it works, efficacy, how to use it, when to apply it, common applications, review of label and SDS

### **Arbor-OTC® Bacteriostat (ELECTIVE)**

What is ARBOR-OTC, how it works, efficacy, how to use it, when to apply it, common applications, review of label and SDS

### **PHOSPHO-jet Fungicide (ELECTIVE)**

PHOSPHO-jet fungicide, features of PHOSPHO-jet, what it does, how to apply, when to use PHOSPHO-jet instead of Propizol, sample applications, cost to apply, review of label and SDS.

### **Propizol® Fungicide (ELECTIVE)**

Propizol fungicide, features of Propizol, how it works, how to apply, when to use Propizol instead of PHOSPHO-jet, sample applications, cost to apply, review of label and SDS.

### **Mn-jet Fe Fertilizer (ELECTIVE)**

What is Mn-jet Fe, how it works, how to apply it, efficacy of injected iron/manganese, common applications, highlights of label and SDS

### **NutriRoot® Fertilizer, Water Retention (ELECTIVE)**

What is NutriRoot, features of NutriRoot, what it does, how to apply, when to use NutriRoot, sample applications, cost to apply, review of label and SDS.

### **Shortstop 2SC Plant Growth Regulator (ELECTIVE)**

What is Shortstop 2SC, what it does, how to apply, when to use, sample applications, cost to apply, review of label and SDS

### **Arbor Rx (ELECTIVE)**

Soil health and tree/shrub fertilizer program

### **Eco-1 (ELECTIVE)**

What Arborjet offers for botanical oil solutions, how to apply, when to use, sample applications, cost to apply, review of label and SDS

### **Product Selection (ELECTIVE)**

Guidance on how to determine the best product for a situation or pest when there are multiple products that are labeled for a pest
